Motion detector, 230 V, 11 m, 200°, IP44, for surface mounting, black

351-03165

This 1-channel outdoor motion detector is suitable for use in a driveway or garden. The detection range is 11 metres. The detection area can be divided using an adjustable cover mask. The motion sensor can be precisely aimed. The device has a built-in light sensor and switches the lighting on automatically or manually with an N.G. push button (to be ordered separately). After the pre-set time delay, the light is switched off automatically. Finishing colour: black

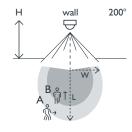

- Detection head adjustable horizontally and vertically
- Separate setting for the lux and the switch-off delay

Motion detector for use in driveways, carports, gardens, etc.

- The lighting remains on while there is motion.
- You can reduce the detection zone using the cover mask provided.
