Coreline tempo small

BVP110 LED42/NW A

4000 K

CoreLine tempo small is a highly-efficient range of luminaires designed for 1:1 retrofit replacement of conventional floodlighting technology, while retaining the same electrical installation and poles. This urban lighting range is designed for the direct replacement of 70W HID lamps, but uses less energy and requires less investment than conventional installations. A narrow range of options makes it easy to find the best lux-for-lux replacement for your project lighting.
