

PRODUCT DATASHEET BA-S-PL GN D

BackLED S Plus G15 | LED modules for light advertising and backlighting

Areas of application

- Signage and illuminated advertising
- Backlighting of small and/or flat channel letters
- Backlighting of single and double-sided light boxes
- Permanent outdoor use in enclosed light boxes or channel letters

Product benefits

- Uniform illumination at high LED pitches thanks to Square Lens technology
- Modules are compatible with BackLED mounting profile
- Significantly better application efficiency compared to systems without lenses
- Several options for quick and simple mounting: bolting or snap-in
- Excellent module efficacy
- Very long lifetime
- 5 year guarantee

Product features

- Connected with flexible cables
- Type of protection (modules): IP66

- Color rendering index R_a : > 80
- CE marked and UL listed

TECHNICAL DATA

Electrical data

Nominal wattage	16.90 W
Construction wattage	16.90 W
Nominal wattage per LED module	0.38 W
Nominal voltage	12 V
Input voltage range	12...13 V
Reverse Voltage	13 V
Type of current	DC
Nominal current	2700.000 mA

Photometrical data

Total useful luminous flux [PICOS]	1110 lm
Luminous efficacy	65.7 lm/W
Luminous flux	1100 lm
Luminous flux per module chain	1110 lm
Light color LED	Green
Nominal dominant wavelength	523 nm

Light technical data

Beam angle	155 °
------------	-------

LED MODULE INFORMATION

Number of LEDs per module	3
Number of LED modules per chain	45
Minimum operable number of LED modules	1

Dimensions & Weight

Length	44 mm
Width	12.00 mm

Height	6.00 mm
Product weight	250.00 g

Temperatures & operating conditions

Ambient temperature range	-25...65 °C
Temperature range in operation	-25...65 °C ¹⁾

¹⁾ At the T_c point

Lifespan

Nominal lamp life time	30000 h
------------------------	---------

Additional product data

Product remark	Modules perfectly matched to OSRAM OPTOTRONIC® LED drivers (see relevant table) / For current photometric data and important safety, installation and application information, see www.osram.com/led-systems . / All the technical parameters apply to the entire module. In view of the complex manufacturing process for light emitting diodes, the typical values given above for the technical LED parameters are merely statistical values that do not necessarily correspond to the actual technical parameters of an individual product; individual products may vary from the typical values
----------------	---

Capabilities

Dimmable	Yes
Dimming range	1...100 %

Certificates & Standards

Approval marks – approval	CE / UL listed
Standards	Acc. to IEC 62031 / Acc. to IEC 62471 / Acc. to CISPR 15 / Acc. to IEC 61547 / Acc. to EN 60529
Type of protection	IP66
Energy consumption	18.60 kWh/1000h
Energy efficiency class	A

LOGISTICAL DATA

Temperature range at storage	-25...85 °C
------------------------------	-------------

EQUIPMENT / ACCESSORIES

- BackLED mounting profile BA-SM-MP
- Several types of OPTOTRONIC 12 V power supplies available

ADDITIONAL PRODUCT INFORMATION

- Installation of LED modules (with power supplies) needs to be made under consideration of all valid regulations and norms.
- Installation by qualified electrician only.
- Please see the relevant application guides and instructions sheets for more detailed safety and mounting information. Additional information is available on request.
- Complies with IEC/EN 61547
- Complies with IEC/EN 61000-3-2
- Complies with EN 55015, CISPR 15
- Complies with IEC/EN 61347-1
- Complies with IEC/EN 61347-2-13
- Parallel connection is mandatory for safe electrical operation. Serial connection of LED modules is strongly discouraged. Unbalanced voltage drop in serial connection can cause hazardous overload and damage the LED module.
- Electrical contact is achieved with the contact cables or the terminals of the module. Please refer to the technical data for maximum number of LED modules that can be operated on one control gear.
- In order to operate OSRAM LED modules safely, it is absolutely necessary to operate them with an electronically stabilized power supply that protects against short circuits, overload and overheating.
- In case other power supplies than OSRAM OPTOTRONIC are used, compliance to the necessary operating parameters (voltage, current, power) has to be ensured.
- Pay attention to polarity! Wrong polarity can cause destruction or malfunction of the module.
- Conducting paths on the circuit board must not be damaged or destroyed during installation.
- The LED module itself and all its components must not be stressed mechanically.
- Operation in or under water is prohibited.
- To avoid mechanical damage, the LED modules have to be attached securely to the intended mounting surface. It is recommended to avoid heavy vibration.
- In case that the LED module is equipped with a pre-mounted double-sided adhesive tape, OSRAM assumes no liability and provides no guarantee for a permanent adherence of the modules to the surface. OSRAM recommends fixation of the modules by means of suitable screws.
- Complies with IEC 61347-1 cl. 18.3, cl. 18.4, IEC 60695-2-10, IEC 60695-11-5, IEC 60695-11-10 (classification V-0)
- All the technical parameters apply to the entire module. In view of the complex manufacturing process for light emitting diodes, the specified typical values for the technical LED parameters are merely statistical values that do not necessarily correspond to the actual technical parameters of an individual product; individual products may vary from the typical values.
- Module contains no PVC material.
- To ensure uniform illumination, a reflective matt white surface is generally recommended for all internal frame walls and back panels of light boxes.
- LED modules are dimmable by means of PWM (pulse width modulation). It is recommended using the following OSRAM control gears: OPTOTRONIC OT DIM or OPTOTRONIC 24 V power supplies with integrated 1...10 V dimming interface.
- The module may cause noises during dimming. If a dimming operation is required, it is recommended to check the dimming operation for noises before final installation.

LOGISTICAL DATA

Product code	Packaging unit (Pieces/Unit)	Dimensions (length x width x height)	Gross weight	Volume
4052899300651	Folding box 1	415 mm x 279 mm x 48 mm	609.00 g	5.56 dm ³
4052899300668	Shipping box 5	428 mm x 254 mm x 298 mm	4557.00 g	32.40 dm ³

The mentioned product code describes the smallest quantity unit which can be ordered. One shipping unit can contain one or more single products. When placing an order, for the quantity please enter single or multiples of a shipping unit.
